

## Easy Checkbox - Virtuemart 2 plugin

Monday, 26 November 2012 16:28

---

With this plug-in you can add some accessories, additives, toppings etc. to your main product that customer can choose. It works like variant plug-in but this plug-in shows checkboxes and you can have as many of them as you want. Administration is very easy. Just type additives with mark-up price separated by commas and thats it.

Here is a picture of layout:

**Plug-in works on Joomla 2.5 with Virtuemart 2.0!**

### Install:

Install plugin with Extension Manager in Joomla and enable it in Plug-in Manager.

Then go to VirtueMart 2.0 and configure plug-in in Custom Fields page. Choose New and then at Custom Field Type choose Plug-ins. Type Title and at Select a plug-in choose VM - Custom - Easycheckbox. You can here type default additives.

Then go to product and go to Custom Fields tab. At Custom Fields Type choose plug-in which you created. Now you can type Title, Selections and choose if you want that plug-in is shown in two columns.

**Example of Selection field:**

sweetcorn|+1,pineapple|+1,onions|+1,olives|+1,mushrooms|1,tuna|+1,pepperoni|+1,extra mozzarella|+1

**You can see demo here: [DEMO](#)**
